Not only will you witness magnificent fjords and glaciers throughout Tromsø, Norway, but you will also immerse yourself in a sophisticated cultural life and architectural delights. A superb example of blending the built environment with the natural setting is the Arctic Cathedral, an architectural marvel made up of aluminum-coated concrete panels, making it a stunning façade resembling an iceberg. To see the real icebergs, all you have to do is take the Fjellheisen cable car 1,525 feet above sea level for incredible views of the Norwegian fjords. You can also stroll around the Arctic-Alpine Botanical Garden, visit the Science Centre of Northern Norway or gain new knowledge at the city's museums including the Polar Museum, Tromsø University Museum, and Perspektivet Museum.

DAY 2 – MAY 22: SKARSVÅG, NORWAY

This village in North Cape on the island of Magerøya claims the distinction of being the northernmost fishing village in the world. Rolling hills of green, magnificent arctic fjords and an untamed natural beauty make it a stunning stop off the beaten path. Rugged cliffs are home to thousands of cormorants, puffins and gannets. While there are few people who inhabit the village, you are likely to come across wild reindeer that may venture close to town. Within the village of Skarsvåg sits the Christmas and Winter House, a cozy visitors' attraction where you can experience the holiday year-round with a hot drink and slice of cake as you peruse the local wares and handicrafts and enjoy an atmosphere of dazzling decorations and festive music

DAY 3 – MAY 23: HAMMERFEST, NORWAY

For being one of the oldest towns in Norway, Hammerfest feels modern. This micro-metropolis has a breathtaking backdrop of steep mountains leading to glaciers and ice fields. For the best panoramic view, walk up the winding trail of Salen Mountain and look out at the islands of Hoja and Hjelmenout. Venture to the Sami camp of Mikkeltgammen, the indigenous locals who will welcome you to share an open fire. Discover the Meridian Column, a UNESCO World Heritage Site recognized as the place where the Earth's size was first calculated. Claim membership to the exclusive Royal and Ancient Polar Bear Society, an honor bestowed on those who visit the world's northernmost town.

DAY 4 – MAY 24: BEAR ISLAND, NORWAY

A destination that embodies the ultimate expedition experience, Bear Island is a testament to the raw beauty

and untamed wilderness that makes the High Arctic so captivating. As you approach the island, you're greeted by sheer cliffs that stand as silent sentinels, touched by the relentless caress of icy winds. These dramatic landscapes form the backdrop to an exhilarating adventure - a place where the thrill of discovery is matched only by the awe of nature's grand design. As your yacht glides along its rugged coastline, keep your eyes peeled for the playful antics of curious seals, and marvel at the majestic flight of seabirds that call this domain home. The air is alive with the promise of the unexpected, as expedition landings invite you to walk paths forged by explorers past. Here, you are not just observing nature; you are a part of it.

DAYS 5-8 – MAY 25-28: EXPLORING SVALBARD - CAPTAIN'S CHOICE

Even in one of the most isolated regions of the Arctic, there is still the captivating history of a pioneering past. Our expedition leaders, along with the captain and onboard pilot, will determine possible landings each day for all-out explorations. Wildlife abounds throughout the archipelago of Svalbard, such as puffins, reindeer, Arctic terns and foxes. An expert photographer will help you look out for the perfect photo opportunity of these animals, but especially for the elusive polar bear. As Zodiac cruises may bring you closer to glaciers, keep your eyes on the water for whale fins.

CAPTAIN'S CHOICE — Your Captain will expertly navigate ice floes, icebergs and changing sea and weather

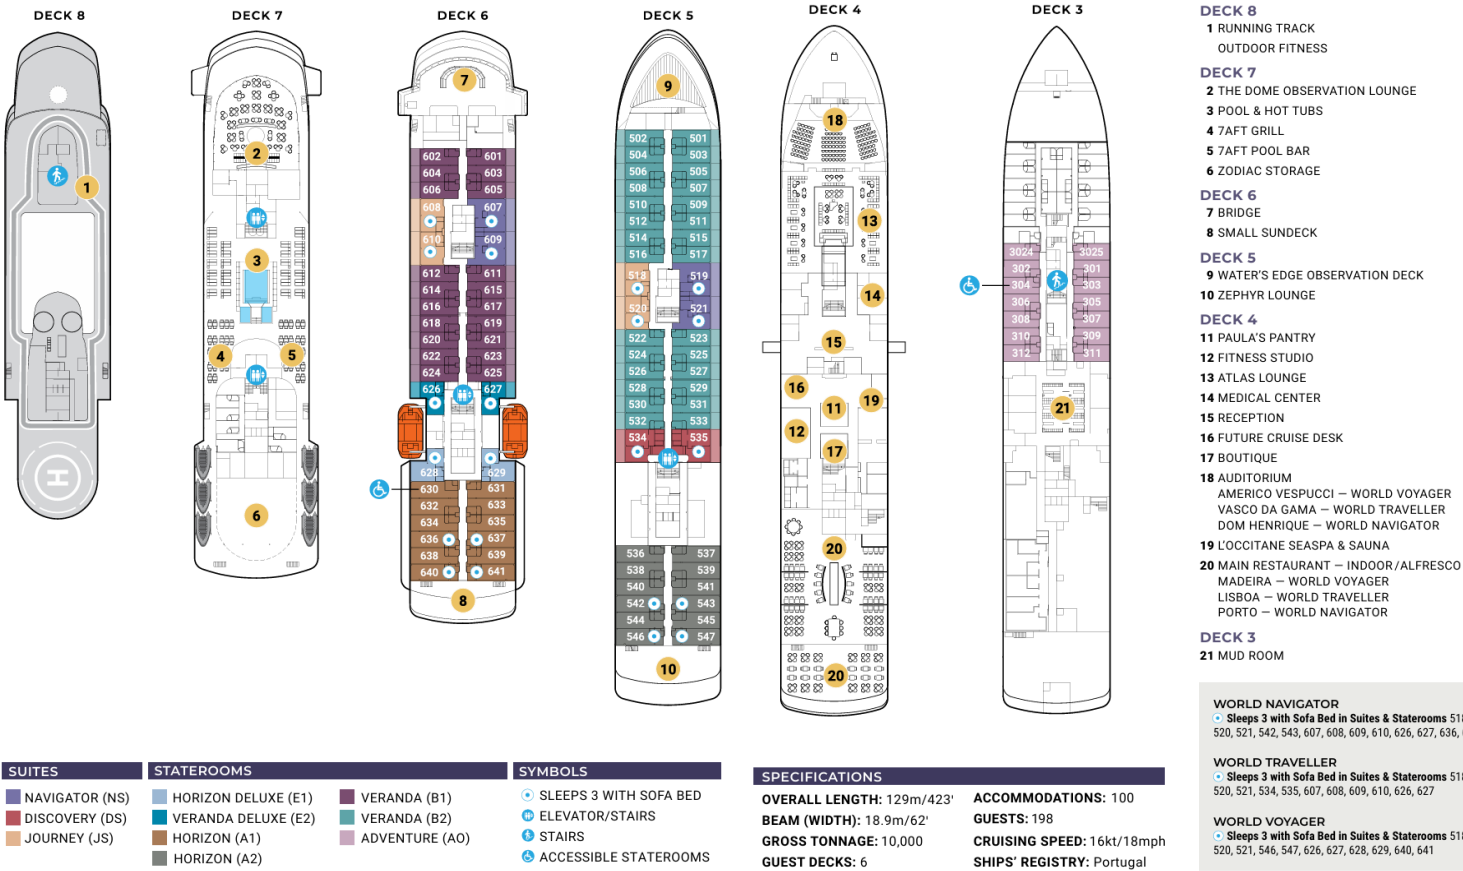

conditions to ensure you experience the most from your expedition. Each day is a new adventure filled with a spontaneous sense of exploration as your Captain works with our expedition team to determine possible shore landings and Zodiac safaris. All itinerary routes serve as examples and are subject to change based on current conditions, prioritizing the safety and optimal expedition experience for all guests.
