

WEST SVALBARD ARCTIC WILDLIFE SAFARI

Not only a frozen wilderness, Svalbard is also a place of precarious beauty and a stronghold of endangered Arctic wildlife. This remarkable expedition departs from the far northern settlement of Longyearbyen on the Norwegian Arctic island of Spitsbergen in the famed Svalbard archipelago. We explore the island's northwestern coast, home to dramatic mountain scenery, tidewater glaciers, and some of the Arctic's best wildlife viewing opportunities.

DATES - 2025: Jun 07 - 16

DURATION – 10 Days | 9 Nights

EMBARK – Longyearbyen, Svalbard
DISEMBARK – Longyearbyen, Svalbard

SHIP - M/V Sea Spirit

From - \$9,356 - Double*

***SAVE 10-15% BOOK BY OCT. 31, 2024**

HIGHLIGHTS -

ARCTIC WILDERNESS

The unique Arctic ecosystem of Spitsbergen is almost entirely protected in a network of nature reserves and national parks. Our voyage takes us to Nordre Isfjorden Nasjonalpark, Forlandet Nasjonalpark, and the spectacular Nordvest-Spitsbergen Nasjonalpark. Each has its own claim to Svalbard's magnificent natural history. By land and sea we encounter a wealth of wildlife—including walrus, Arctic fox, reindeer, and a variety of whales and seals—in one of the High Arctic's most pristine and protected environments. We also encounter a surprising wealth of hardy plant life and striking geology throughout the area.

POLAR BEARS

Svalbard boasts one of the Arctic's highest concentrations of polar bears. They are the world's largest land carnivores and have become a symbol of the imperiled Arctic wilderness. This is one of the best places in the world to view polar bears hunting in their preferred habitat: the pack ice. During our sojourn to the ice edge we hope to come across this majestic creature employing various strategies to catch seals in the ever-shifting labyrinth of the pack ice. But these wide-ranging and opportunistic Arctic nomads can just as well be found at other places and times during our voyage.

HUMAN ENDEAVOR

Our area of exploration is rich with historical sites including early whaling camps, trappers' cabins, deserted coal mining operations, and an abandoned polar research station. It also contains the staging areas for many historic expeditions to the North Pole, including those of Roald Amundsen and Walter Wellman. Modern human endeavor in this area can be experienced at Ny Ålesund, a former mining town that is now home to a multinational community of Arctic researchers. In addition to a museum, gift shop, and post office, visitors to this extreme northern settlement find a famous bust of Amundsen and a historic airship mast.

ITINERARY

Day 1: LONGYEARBYEN, SVALBARD, NORWAY

Welcome to Longyearbyen, the administrative center of Svalbard and starting point of our Arctic expedition! At the Longyearbyen airport, you will be greeted by our staff and transferred to a quality hotel, which has been arranged by us and is included in the price of the itinerary. You will then be free to explore the charming, walkable town center.

Day 2: Longyearbyen, Svalbard – EMBARKATION

After breakfast at your hotel, the morning is yours to enjoy Longyearbyen. Take in the views of icy fjords and glaciated mountains surrounding this historic former coal-mining town. Take advantage of shopping for souvenirs or some last-minute necessities such as cold-weather gear. Just remember, you will soon receive your very own parka to keep and waterproof boots to borrow on board the ship. For lunch, Longyearbyen offers quick and easy meal options including the most northerly pizzas and kebabs in the world.

In the afternoon, you will be transferred to the pier where we will warmly welcome you aboard the deluxe expedition vessel M/V Sea Spirit. Get settled in your spacious suite and explore the ship that will be your comfortable home during the extraordinary adventure to come. After getting underway, a full schedule of events kicks off with informative briefings and introductions from your expedition staff. After the first of many delicious dinners on board, step out onto the open decks to admire the gorgeous scenery in 24-hour daylight as we pass through the wildlife-rich waters of Isfjorden.

Days 3-9: Exploration of West Spitsbergen

The itinerary for this voyage focuses on the spectacular fjords, coasts and islands of western Spitsbergen, the main island of the Svalbard archipelago. This area

contains Svalbard's most impressive scenery and some of the Arctic's best wildlife viewing opportunities. Our exact schedule and route will be shaped by the weather and ice conditions we encounter. Polar bears and other iconic Arctic animals can be spotted at anytime, anywhere in our area of exploration.

One of the pristine natural areas on this itinerary is South Spitsbergen National Park, a vast region of varied landscapes including polar deserts and impassible mountain ranges. The centerpiece of this park is Hornsund, a picture-perfect fjord where countless mighty glaciers cascade from soaring mountaintops into icy inlets. At this time of year, we are sure to encounter fast ice—that is, sea ice that is fastened to the shore. This situation offers an excellent chance of observing polar bears on the hunt for ringed seals. The park also includes the southern shores of Bellsund, a picturesque bay where we find the remains of historical whaling operations, including wooden boats, cabins and thousands of whale bones—a scene from the distant past, literally frozen in time. This area also offers great hiking opportunities through landscapes rich with Arctic flora and birdlife, as well as fascinating geology.

Also on our route is Northwest Spitsbergen National Park, the crown jewel of Svalbard's scenic wonders. Here we find deep fjords flanked by serrated mountain peaks and immense tidewater glaciers calving icebergs into turquoise waters. The whole area is alive with migratory Arctic seabirds. On this voyage, we are just in time to witness the return of millions of murre, guillemots and little auks to the small islands, mountainsides and sea cliffs where they breed within the park. This is also a great area to encounter marine mammals, including various kinds of whales and Arctic seals. Set among this incredible scenery and wildlife activity, we also find evidence of Svalbard's earliest sealers and whalers.

Our area of exploration also includes gorgeous Forlandet National Park. Here we find Prins Karls Forland, one of the best places in Svalbard to observe herds of walrus hauled out on land. Also along the route is North Isforden National Park, where we have the chance to observe endemic Svalbard reindeer grazing and Arctic fox romping in lush tundra meadows.

Human habitation along our route can be found at Ny Ålesund, a former mining town and airship base that is now home to an international community of Arctic researchers. This is one of the world's most northerly settlements where we find a museum, gift shop and post office.

In addition to exploring the terrestrial environment and inshore waterways of western Spitsbergen, we make a special effort to reach the edge of the polar pack ice. At this dynamic boundary between solid sea ice and open ocean, we have an unparalleled opportunity to witness the dramatic interplay between polar bears and seals. We will take the ship as close as safely possible to the jumbled and constantly shifting ice floes in the hope of observing polar bears hunting in their preferred habitat. At this time of year, the ice edge is not far from mainland Spitsbergen and our sailing time in open seas will be relatively short.

The West Svalbard and Polar Ice Edge route offers a stunning variety of Arctic landscapes and animals with minimal sailing time between excursions. Every day offers something new and exciting. We will not miss a single opportunity to encounter amazing Arctic wildlife, to witness incredible polar scenery, and to walk in the footsteps of historic expeditions that came before.

Day 10: Disembark in Longyearbyen, Svalbard

After breakfast we say farewell in the town of Longyearbyen, where we started. We provide a transfer to the airport or to the town center if you wish to spend more time here.
