

WEST SVALBARD

SPITSBERGEN & THE POLAR ICE EDGE

This remarkable expedition departs from the far northern settlement of Longyearbyen on the Norwegian Arctic island of Spitsbergen in the famed Svalbard archipelago. We explore the island's northwestern coast, home to dramatic mountain scenery, tidewater glaciers, and some of the Arctic's best wildlife viewing opportunities. On this voyage we also venture to the jumbled edge of the north-polar ice cap in search of polar bears stalking their prey. Here, at the dynamic boundary between implacable ice and bountiful sea, we have a rare opportunity to experience raw nature and incredible events hardly ever seen.

Dates -

2027: Jun 13-22 | Jun 21-30 | Jun 29-Jul 8

Duration – 10 Days/9 Nights

Roundtrip - Longyearbyen, Svalbard

Ship- M/V Sea Spirit

From - \$9,071 Double*

*** Book By Sep 30, 2026**

HIGHLIGHTS

ARCTIC WILDERNESS

The unique Arctic ecosystem of Spitsbergen is almost entirely protected in a network of nature reserves and national parks. Our voyage takes us to Nordre Isfjorden Nasjonalpark, Forlandet Nasjonalpark, and the spectacular Nordvest-Spitsbergen Nasjonalpark. Each has its own claim to Svalbard's magnificent natural history. By land and sea, we encounter a wealth of wildlife—including walrus, Arctic fox, reindeer, and a variety of whales and seals—in one of the High Arctic's most pristine and protected environments. We also encounter a surprising wealth of hardy plant life and striking geology throughout the area.

POLAR BEARS

Svalbard boasts one of the Arctic's highest concentrations of polar bears. They are the world's largest land carnivores and have become a symbol of the imperiled Arctic wilderness. This is one of the best places in the world to view polar bears hunting in their preferred habitat: the pack ice. During our sojourn to the ice edge we hope to come across this majestic creature employing various strategies to catch seals in the ever-shifting labyrinth of the pack ice. But these wide-ranging and opportunistic Arctic nomads can just as well be found at other places and times during our voyage.

HUMAN ENDEAVOR

Our area of exploration is rich with historical sites including early whaling camps, trappers' cabins, deserted coal mining operations, and an abandoned polar research station. It also contains the staging areas for many historic expeditions to the North Pole, including those of Roald Amundsen and Walter Wellman. Modern human endeavor in this area can be experienced at Ny Ålesund, a former mining town that is now home to a multinational community of Arctic researchers. In addition to a museum, gift shop, and post office, visitors to this extreme northern settlement find a famous bust of Amundsen and a historic airship mast.

ITINERARY

Day 1: Arrival in Longyearbyen

Welcome to Longyearbyen, the administrative center of Svalbard and starting point of our Arctic expedition! At the Longyearbyen airport, you will be greeted by our staff and transferred to a quality hotel, which has been

arranged by us and is included in the price of the itinerary. You will then be free to explore the charming, walkable town center.

Day 2 – Welcome Aboard

After breakfast at your hotel, the morning is yours to enjoy Longyearbyen. Take in the views of icy fjords and glaciated mountains surrounding this historic former coal-mining town. Take advantage of shopping for souvenirs or some last-minute necessities such as cold-weather gear. Just remember, you will soon receive your very own parka to keep and waterproof boots to borrow on board the ship. For lunch, Longyearbyen offers quick and easy meal options including the most northerly pizzas and kebabs in the world.

In the afternoon, you will be transferred to the pier where we will warmly welcome you aboard the deluxe expedition vessel M/V Sea Spirit. Get settled in your spacious suite and explore the ship that will be your comfortable home during the extraordinary adventure to come. After getting underway, a full schedule of events kicks off with informative briefings and introductions from your expedition staff. After the first of many delicious dinners on board, step out onto the open decks to admire the gorgeous scenery in 24-hour daylight as we pass through the wildlife-rich waters of Isfjorden.

Day 3-9: Exploration of West Spitsbergen

The itinerary for this voyage focuses on the spectacular fjords, coasts and islands of western Spitsbergen, the main island of the Svalbard archipelago. This area contains Svalbard's most impressive scenery and some of the Arctic's best wildlife viewing opportunities. Our exact schedule and route will be shaped by the weather and ice conditions we encounter. Polar bears and other iconic Arctic animals can be spotted at anytime, anywhere in our area of exploration.

One of the pristine natural areas on this itinerary is South Spitsbergen National Park, a vast region of varied landscapes including polar deserts and impassible mountain ranges. The centerpiece of this park is Hornsund, a picture-perfect fjord where countless mighty glaciers cascade from soaring mountaintops into icy inlets. At this time of year, we are sure to encounter fast ice—that is, sea ice that is fastened to the shore. This situation offers an excellent chance of observing polar bears on the hunt for ringed seals. The park also includes the southern shores of Bellsund, a picturesque bay where we find the remains of historical whaling operations, including wooden boats, cabins and thousands of whale bones—a scene from the distant past, literally frozen in time. This area also offers great hiking opportunities through landscapes rich with Arctic flora and birdlife, as well as fascinating geology.

Also on our route is Northwest Spitsbergen National Park, the crown jewel of Svalbard's scenic wonders. Here we find deep fjords flanked by serrated mountain peaks and immense tidewater glaciers calving icebergs into turquoise waters. The whole area is alive with migratory Arctic seabirds. On this voyage, we are just in time to witness the return of millions of murres, guillemots and little auks to the small islands, mountainsides and sea cliffs where they breed within the park. This is also a great area to encounter marine mammals, including various kinds of whales and Arctic seals. Set among this incredi-

ble scenery and wildlife activity, we also find evidence of Svalbard's earliest sealers and whalers.

Human habitation along our route can be found at Ny Ålesund, a former mining town and airship base that is now home to an international community of Arctic researchers. This is one of the world's most northerly settlements where we find a gift shop and a post office. We also visit a famous airship mast that was a starting point of the North Pole expeditions by Umberto Nobile and Roald Amundsen. This place played an important part in the history of polar exploration.

The ambitious Svalbard and Polar Ice Edge route offers a comprehensive view of the Arctic's many faces. Every day offers something new and exciting. We will not miss a single opportunity to encounter amazing Arctic wildlife, to witness incredible polar scenery, and to walk in the footsteps of historic expeditions that came before.

Day 10: Disembarkation in Longyearbyen, Svalbard

After breakfast we say farewell in the town of Longyearbyen, where we started.
